

# Barford SR165 Specification Sheet

The **Barford SR165** is a powerful, compact, and highly efficient mobile screener designed for operators who need exceptional output, flexible mobility, and dependable performance across a wide range of applications. Built with Barford's reputation for toughness, the SR165 delivers consistent results in quarrying, recycling, demolition, landscaping, aggregates, and soil screening.

## Key Features

- **Large 16×5ft (4.88m × 1.52m) Screenbox**

A heavy-duty, two-deck inclined screenbox provides excellent material separation and high throughput, ensuring clean products and efficient processing on all materials.

- **Impressive Output**

Designed for productivity, the SR165 handles significant volumes with ease, making it suitable for both standalone use and integration into larger crushing and screening circuits.

- **Variable Speed Control**

Fully adjustable screenbox and feeder speeds allow operators to fine-tune screening performance to match material type and desired product specification.

- **Strong, Robust Construction**

Engineered for the toughest environments with reinforced chassis, heavy-duty components, and dependable hydraulics for long-term reliability.

- **Quick Setup & Easy Operation**

Simple controls and rapid setup time make the SR165 ideal for contractors and operators who need a machine that's ready to work with minimal fuss.

- **Mobility for Any Jobsite**

Track-mounted mobility ensures excellent on-site movement, enabling the screener to navigate uneven ground and relocate quickly as needed.

## Technical Highlights

- **Screenbox Size:** 16ft x 5ft (approx.) two-deck
- **Output:** High capacity for aggregates, soils, sand, gravel, and waste materials
- **Power:** Fuel-efficient engine with reliable hydraulics
- **Mobility:** Heavy-duty tracks for rough terrain
- **Adjustability:** Variable screening angles and deck speed options
- **Maintenance:** Easy access for servicing and cleaning

## Ideal Applications

- Quarry & Aggregate Production
- Construction & Demolition Recycling
- Soil & Compost Screening
- Sand & Gravel Processing
- Waste Handling & Material Separation
- Landscaping & Groundworks

## Why Choose the Barford SR165?

The Barford SR165 offers the perfect balance of **capacity**, **mobility**, and **durability**, making it an excellent choice for operators seeking a versatile and high-performing screening solution. With its robust build and smart design, it delivers exceptional value, low running costs, and reliable performance across all material types.
